OLD GALENA ROAD CONSTRUCTION NEWSLETTER # 30

Date: November 13, 2023

Contact: Jeff Gilles, Assistant County Engineer
(309) 697-6400, Extension 127
jgilles@peoriacounty.org

As I am sure everyone is aware now, Old Galena Road is fully open and the traffic signals are functioning. The traffic control subcontractor spent today picking up barrels and traffic control signs. They have a few new signs remaining to install on site, but all major work is completed. We will monitor the erosion control measures over the winter and make sure all of the grass seed is established in the spring before we begin project closeout with the contractor.

This is the last newsletter for the project. I want to thank everyone for their patience during the project. I know it was not easy with the portion between the roundabout and IL Route 29 being closed so long, as well as all of the work at the entrances to the school.

Thank you!
